AbdELRaouf Mohamed AbdELRaouf

First-Year Computer Science Student | Future Software Engineer

PROFILE

Computer Science student and future software engineer with a strong passion for programming, problem-solving, and continuous learning. Currently building a solid foundation in computer science principles and eager to explore software development, turn ideas into functional code, and grow through hands-on projects and future opportunities.

CERTIFICATES

Database Fundamentals - Mahara-Tech / ITI Platform (15 August 2026)

Build with AI Training - Google Developer Groups OnCampus, Arab Open University

Python Programming Fundamentals - Artificial Intelligence Club, Arab Open University (2 July 2026)

Certificate of Excellence - A1 Course - Arab Open University (2026)

PROJECTS

Projects coming soon. This section will be updated as practical projects are completed and published.

CAREER GOAL

To grow through hands-on practice, build useful software, and develop into a confident software engineer.
